SAFETY SPECIALIST

Safety Specialist role in Amazon

The global Workplace Health and Safety team at Amazon is responsible for maintaining, developing and implementing the highest standards of safety and well-being in the workplace for all our employees.

Other activities are related to this main goal and include:

- Maintain accurate daily, weekly, and monthly metrics to report to onsite management teams and corporate based reporting systems
- Support management efforts to ensure compliance with all corporate program expectations and applicable federal and state laws
- Conduct risk assessments related to jobs performed (Job Hazard Analysis) and new equipment introductions
- Responsible for recommending appropriate risk mitigation measures to management, including ergonomics

“

**We make and keep our
operations safe.
At the highest standards.**

”
